Don't forget to register for IAAO's next webinar which is a FREE webinar titled, "What You Don't Know Can Hurt You; Taking Control of Your Online Brand" presented by Tiffany Seward and Tina Morton being offered from Noon - 2 pm CDT, Wednesday, April 16, 2014.

This Webinar examines how and what customers find when they search online for information about the assessment office and demonstrates how to leverage mobile communication services for the purpose of establishing and protecting the assessment office brand. For example, someone may only want to know the location or office hours. Without the exact web address, a customer typically uses keywords which may or may not produce accurate information. Finding and correcting online errors adds to the consistent, positive "image" or "branding" we seek to project of the assessment office.

This free webinar offers 2.0 CEU. Register at [IAAO.org](#)
