Creating Interests
Creating Interests

This tutorial will show you how to create interests in the LibraryLink Catalog. By creating an interest with your account, you will be notified when the library receives materials that match your interest topic.
Creating Interests

• You must be a member to create interests in the LibraryLink Catalog.

• Members must be logged in.
  – For further instructions on how to log in, see the video titled “How to Access the Library Link Catalog”.

From the LibraryLink homepage, select the “Library Portal” menu, then “Interests”.
From your interests page, select the “Add a new interest” button.
Fill out the information accordingly. For this example, I want to be notified of any new materials the library receives on foreclosure. Click save to finish.

You will now be alerted if any material the library receives matches your interest.
