

Making Connections and Contacts

To find friends and make peer connections in IAAO Connect use these easy steps listed below. For additional resources please visit the [IAAO Connect FAQ Page](#), or email Connect@iaao.org.

Step 1

To connect with other IAAO Connect members you can start by going to your **Profile** page by clicking the down arrow to the right of your profile picture/icon, this can be found in the very top right of the page, and then clicking **Profile**.

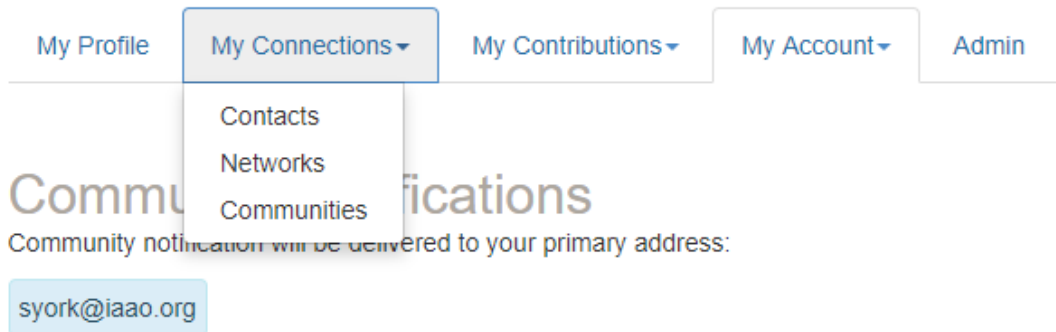

Step 2

From your **Profile** page, click the **My Connections** menu and select **Contacts**.

Mr Shaun York

Technology Manager, IAAO

To receive specific community notifications at an address other than your primary, set override(s)

Primary Email: 

Step 3

This will show you a list of your current **Contacts**. One method to find additional peers who you have yet to add as a contact is to use the **Member Directory**, which is covered in an additional document.

Step 4

Selecting **Networks** from the **My Connections** menu will display all your auto-generated **Networks**. These are created by looking at member's demographic information and auto-generating a network based on having the same information in that field. For example, you'll easily be able to find any other member who attended the same school as you.
